

Critical Reflection and Action Plan

Sun Safety

Now that you have completed the Enhance online training module, it is time to think about your current practice and environment. It is ok if you do not comply with all the new policy requirements – we want to work with you to create an action plan with enough time for you to make the changes. If you have any questions or concerns, please talk with a practice mentor.

Critical Reflection

Think about your current environment. What works and what doesn't work when you think about sun safety for children?
