EYLF v2 & MTOP v2

What's changed & what does it mean for me?

Presented by Kirsty Fantini, Early Years Learning

Prerecorded to view at your leisure!

Dear <<First Name>>

Both the Early Learning Years Framework (EYLF) and My Time Our Place (MTOP) outline principles, practices and learning outcomes that guide Educational leaders and Educators in their curriculum decision-making, and assist them in planning, delivering and evaluating quality programs in early childhood and school age settings.

Following the release of the refreshed National Approved Learning Frameworks (ALF) earlier this year, we are pleased to share two free virtual professional development sessions, as hosted by Kirsty Fantini, Early Years Training to help explore, understand and implement the updated EYLF v2 and MTOP v2.

We hope both sessions, with corresponding resources, help with the process of familiarising yourself with the updated learning frameworks, to navigate the identified changes, whilst providing strategies and ideas on how to adjust relevant aspects of your educational program and practice to reflect the new or amended aspects of the framework, as best suited to your Service.

We encourage you to explore, navigate and commence the transition to the updated ALF's v2 this year. It is through participating in sessions like these, by working with your Practice Mentor and by connecting in with other likeminded Educators that will help ensure a smooth and simple transition prior to the 1 February 2024, at which time the original EYLF and MTOP will cease to be recognised under the National Law.

Please see your direct Session Links plus handy handouts as below. Once viewed, you will find a short survey, to receive a personalised Professional Development Certificate. Please remember to download and forward your certificate of

completion to your Practice Mentor, as evidence of ongoing professional development.

This link will be valid for 6 months only, allowing you to rewatch the session as a refresher closer to when the new Approved Learning Framework comes into place 1 February 2024.
