Family Day Care

Assessment and Rating Follow Up

Dear <<<firstname>>>

We are on the other side of the formal components of Assessment and Rating!

Please accept this message as a heartfelt thank you to each of you for your part in this important process. Your openness to the process, your ongoing professionalism, energy and commitment to what at times no doubt, felt daunting and as an “extra” was impressive!

Thank you for being part of this new learning chapter and for shining the light on your service in practice and on Family Day Care as a whole.

This was our opportunity to showcase Family Day Care, to share the impressive work that you do each day, to work collaboratively with the Department of Education whilst also reciprocally informing many about FDC in practice.

It felt smooth, it felt supportive, it felt hopeful, it felt collaborative. We continue to learn with each new experience, and we are excited for what comes next for our Service in partnership with some fresh new goals being added to our QIP.

We have come such a long way in recent years, and we want to shout from the rooftops about how great each of you are, plus share the uniqueness of each service that supports the family and local community so wonderfully well.

What next:

- Please remember our QIP is a live document that supports our ongoing improvements and success. Please contribute – <http://https://forms.monday.com/forms/391a309113e05b24fddc02bad875d6ce?r=use1>

- We will share learnings during Educator meetings, social media and communications
- We will continue to streamline processes and find time saving toolkits that support further Educator success
- Draft report - feedback process from Service to Department of Education.
- Final report – certificates of rating to follow – for each Service to place on display within 7 days of receipt

More messages and highlights to follow. For now, thank you!!!

Kind Regards

A handwritten signature in cursive script that reads "Meegan Walsh".
